## **ArmorerLink® Has Solutions for Armed Schools Districts**

**Hillsboro, Oregon:** ArmorerLink serving law enforcement and the military has solutions for school districts nationwide choosing to arm teachers, as well as security guards, by offering school districts the ArmorerLink® Firearm Management System and Tactical Lockers.

Chief Executive Officer Joe Ganete said *“School districts will need a proven system for tracking firearms, qualifications, training and maintenance. We are ready to help schools stay in compliance with our patent pending turnkey solution”*.

Ganete also added that although training armed teachers and security guards is a critical component to the school district program success, proper documentation and record keeping of firearm training and maintenance compliance must not be overlooked.

ArmorerLink’s Military Sales Manager and Retired School Resource Officer Emory Souza said, *“School administrators will need to also consider a secure firearm storage system, and ArmorerLink is ready to help with electronic lockers that seamlessly integrate with ALFMS”*.

School Districts looking at implementing a structured firearm management system, please email Emory Souza at [emory.souza@amorerlink.com](mailto:emory.souza@amorerlink.com) or by calling (800) 571-0753.

### **About ArmorerLink®**
